

ABSENTEE LANDOWNERS — READ THIS

Who's watching your land?

You bought raw high-desert land out here. It might be a thousand miles from your front door. **I live right here in Concho** — and I'll be your boots on the ground.

MONTHLY LAND CHECKS

A neighbor keeping watch on your parcel.

- △ **Date-stamped photos** of your parcel, every month
- △ Dumping, damage & **trespasser check**
- △ Fence-lines and **corner stakes** verified
- △ Road & access condition **after every storm**
- △ A clear **written report** sent to your phone

I'll stand on your land, photograph what I see, and tell you straight — no guessing from a satellite map.
